

## Sponsors for ASP's

# 34<sup>th</sup> National Agricultural Plastics Congress

The American Society for Plasticulture relies on the financial support of sponsors to insure that Congress registration fees can be kept within reach of the ever-tightening budgets of academic, extension, and industry attendees. The American Society for Plasticulture gratefully acknowledges the commitment these sponsors have made to strengthening the industry and developing the skills of all its members. The following companies are the 34<sup>th</sup> National Agricultural Plastics Congress sponsors as of February 21, 2008.

### Congress Gold Sponsors

## Ciba

#### Ciba Corporation

Rodrigo Lima  
540 White Plains Road  
Tarrytown, NY 10591  
Phone: 914-785-4068  
Fax: 914-785-2111

Email: [rodrigo.lima@ciba.com](mailto:rodrigo.lima@ciba.com)  
[www.ciba.com](http://www.ciba.com)

Ciba Specialty Chemicals is the leader in developing and marketing high performance stabilizers designed to provide better protection for agricultural film applications such as greenhouse, small tunnel, mulch and silage films. Ciba's latest technology is Ciba® SMARTLIGHT™ RL 1000, a photoselective additive that shifts light from the UV part of the spectrum to visible light used by plants for photosynthesis and can help enhance growth of flowers like roses. Ciba also offers a wide range of effects additives for agricultural plastics, including anti-fog, anti-fungi and anti-algae agents as well as additives for degradable plastics.

## JOHN DEERE

### WATER TECHNOLOGIES

#### John Deere Water Technologies

John Roberts  
700 Rancheros Drive  
San Marcos, CA 92609  
Phone: 760-744-4511  
Fax: 760-744-0914

Email: [jroberts@johndeerewater.com](mailto:jroberts@johndeerewater.com)  
[www.johndeerewater.com](http://www.johndeerewater.com)

John Deere specializes in manufacturing high performance plastic micro and drip irrigation products for the agricultural, nursery, landscape, and greenhouse markets. All of our products are designed to be easy to use, energy efficient, versatile, durable and competitively priced. Many of our products are proprietary and have been patented. Our product line includes: RO-DRIP® drip tapes, MAX FLAT HOSE®, PVC Valves, SPOT-SPITTER® spray stakes, premium grade polyethylene Hose and Tubing, 435/436 Sprinklers, SPOT-SPINNER® micro sprinklers, and the DROP-IN BUBBLER for nursery containers. We also sell complementary accessory products such as PRO-GRIP fittings, pressure regulators and filters for use in systems with our other products.

#### Modern Dispersions, Inc.

Cesar Espitia  
78 Marguerite Avenue  
Leominster, MA 01453  
Phone: 978-534-3370  
Fax: 978-537-6065

Email: [cespitia@moderndispersions.com](mailto:cespitia@moderndispersions.com)  
[www.moderndispersions.com](http://www.moderndispersions.com)

Modern Dispersions Inc. (MDI) is a leading producer and exporter of Black, Additive and UV Stabilizer Concentrates for a variety of agricultural applications. MDI concentrates are used for shade cloth or UV resistant nets, mulch films, tunnel covers, drip-irrigation tapes and tubing, geomembranes, and greenhouse covers.

*Advanced Crop Protection from Olefinas.*

Olefinas is a manufacturer of agricultural plastics to include plastic mulch, greenhouse film, tying twine, and banana bags. Olefinas Group has a presence in more than a dozen countries. The company is a part of a diversified international US corporation, McNeel International, which is headquartered in Tampa FL and which has served agricultural markets for nearly 50 years. Current state-of-the-art manufacturing plants in Mexico and Guatemala produce high-quality, high-value products, such as ultra high-barrier (VIF) embossed mulch films. Keith Williamson, a former president of ASP, is the Vice President and General Manager of Olefinas USA.

**Olefinas USA**

Keith Williamson  
2100 Vista Vue Drive  
Hartsville, SC 29550  
Phone: 843-319-2095  
Fax: 312-602-4982

Email: [keith.williamson@olefinas.com](mailto:keith.williamson@olefinas.com)

*Congress Silver Sponsors*

Ampacet has been serving the plastics industry for over 60 years as a major global supplier of color and additive concentrates for the polymer industry, specializing in products for polyolefin film, including agricultural applications, blow molding, injection molding and pipe. Ampacet has thirteen manufacturing facilities strategically located around the world, and is ISO Certified.

**Ampacet Corporation**

Jon Conroy  
529 St. Charles Avenue  
Atlanta, GA 30308  
Phone: 404-745-4953  
Fax: 404-745-4195

Email: [jon.conroy@ampacet.com](mailto:jon.conroy@ampacet.com)  
[www.ampacet.com](http://www.ampacet.com)

Producer of titanium dioxide (white pigment) for use in plastic, paper, and coatings applications

**DuPont Titanium Technologies**

Sandra Davis  
Chestnut Run Plaza, Building 709  
Wilmington, DE 19880  
Phone: 302-999-2540  
Fax: 302-999-2474

Email: [sandra.p.davis@usa.dupont.com](mailto:sandra.p.davis@usa.dupont.com)

*Congress Bronze Sponsors*

**Chapin Watermatics, Inc.**

William Chapin  
740 Water Street, PO Box 490  
Watertown, NY 13601  
Phone: 315-782-1170  
Fax: 315-782-1490

Email: [wchapin@chapindrip.com](mailto:wchapin@chapindrip.com)  
[www.chapindrip.com](http://www.chapindrip.com)

**Intergro, Inc.**

Timothy J. Dolan  
2915 SR 590, Suite 15  
Clearwater, FL 33759  
Phone: 727-799-9663  
Fax: 727-799-1742

Email: [tim.dolan@intergro.com](mailto:tim.dolan@intergro.com)  
[www.intergro.com](http://www.intergro.com)

Area of Expertise: Drip irrigation, fumigants, mulch film, plastics disposal/recycling, row covers.

Leading manufacturer of embossed mulch films.

Techmer PM is a manufacturer and formulator of colorants and many additives used in the agricultural plastics industry. Techmer PM has developed products for greenhouse films, mulch films, and injection-molded products used in plasticulture.

## Micro-Irrigation Business

Toro Micro-Irrigation is a worldwide manufacturer of micro-irrigation products. Our innovations have set the standard in providing micro-irrigation solutions for agriculture, mining and landscape applications for over 30 years. Toro Micro-Irrigation has offices located in the USA, Europe and Australia, with a sales team that serves each region of the world.

MINBLOC® thermal film additives are engineered to improve light transmission, increase thermal energy efficiency and extend the service life of LDPE, LLDPE and EVA horticultural films. Films containing MINBLOC additives contribute to accelerated plant growth by transmitting greater amounts of photosynthetically active radiation (PAR). An optimal balance of refractive index and infrared reflection properties, MINBLOC can be highly loaded to enhance thermicity without degrading visible light transmittance. MINBLOC additions also act as infrared reflectors to retain as much as 90% of captured energy for exceptional thermal efficiency in greenhouse covers and in high and low tunnel film applications.

## Pliant Corporation

Mark L. Jordan  
149 Valley Stream Circle  
Chesterbrook, PA 19087  
Phone: 610-578-012  
Fax: 757-888-6028  
Email: [mark.jordan@pliantcorp.com](mailto:mark.jordan@pliantcorp.com)  
[www.pliantcorp.com](http://www.pliantcorp.com)

## TECHMER PM

Mark D. Jordan  
Vice-President for Marketing  
18420 Laurel Park Road  
Rancho Dominguez, CA 90220  
Phone: 310-632-9211  
Fax: 310-632-6884  
Email: [mjordan@techmerpm.com](mailto:mjordan@techmerpm.com)
